

Biochemistry and Biophysics Courses List

<i>Biochemistry - Compulsary (seasonal 18credits)</i>		
1	Enzymology	3credits
2	Control of Metabolism	3credits
3	Biochemistry of Carbohydrates and Lipids	3credits
4	Methods in Biochemistry and Biophysics	3credits
5	Biochemistry of Proteins and Nucleic Acids	3credits
6	Advanced Molecular Biology	3credits

<i>Biochemistry - Optional (seasonal 12credits)</i>		
7	Biochemistry of Hormones	3credits
8	Biochemistry of Nervous system	3credits
9	Biochemistry of Nervous system	3credits
10	Biochemistry of chromatin	3credits
11	Biochemistry of Cell Membrane	3credits
12	Special Topics in Biochemistry	3credits

<i>Biophysics - Compulsary (seasonal 18credits)</i>		
13	Molecular Biophysics	3credits
14	Biophysics of Irradiation	3credits
15	Methods in Biochemistry and Biophysics	3credits
16	Cellular Biophysics	3credits
17	Advanced Molecular Biology	3credits
18	Physical Biochemistry of Proteins and Nucleic Acids	3credits
