

## Edit personal page

### Personal Information Change

If you want to change your personal information such as photo, description, research interests and research papers please login to the following website using your global username and password:

<https://phoenix.iasbs.ac.ir>

### Personal Homepage guide

If you want to change your personal homepage please ssh to the following address using your global username and password:

[owl.iasbs.ac.ir](http://owl.iasbs.ac.ir)

### Remote SSH Connections with Command Line in Linux

Enter the following information in the command line:

```
# ssh username@owl.iasbs.ac.ir
```

Password: Your password

Now you can modify your home directory.

### Remote SSH Connections with WinSCP in Windows

#### 1. Install WinSCP

If you haven't already done so, download [WinSCP5](http://WinSCP5) and install it.

## Edit personal page

### 2. Set Up WinSCP

Open WinSCP

On the log in screen that appears, enter the following information:

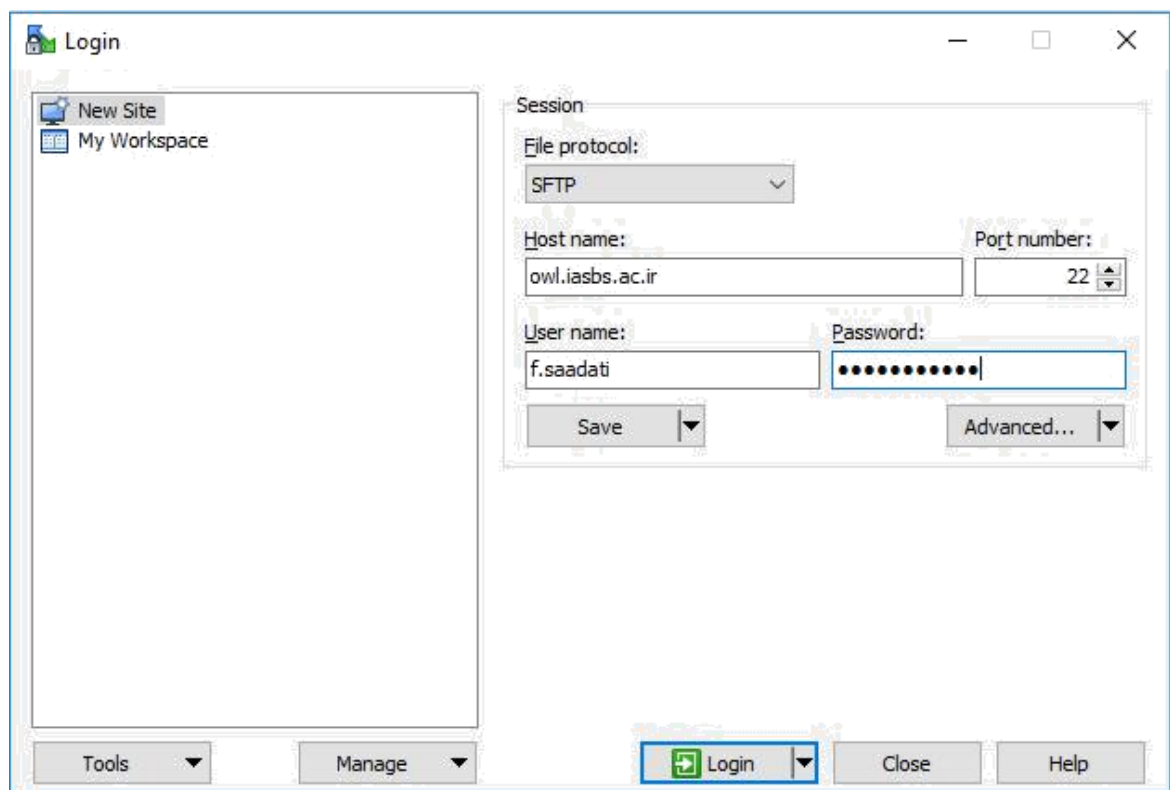

File protocol: **SFTP**

Host name: **owl.iasbs.ac.ir**

Port number: **22**

User name: Your username (Do not include "@iasbs.ac.ir" after your ID)

Password: Your password

Click **Login**

Warning

Continue connecting to an unknown server and add its host key to a cache?

The server's host key was not found in the cache. You have no guarantee that the server is the computer you think it is.

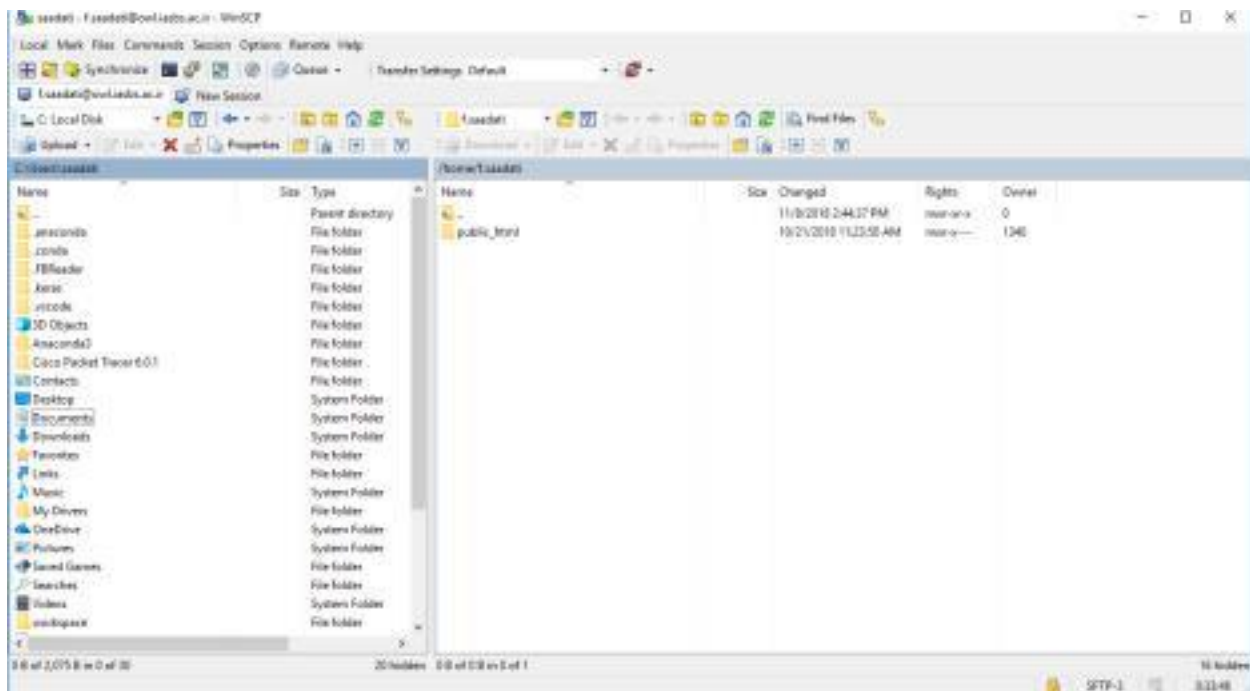

## Edit personal page

If this warning dialog box appears and you are using your own computer, click **Yes**. If you are using someone else's computer or a computer in a public site, click **No**.

### 3. Upload Your Files

A window showing your local computer on the left and your home directory on the right opens. You are now ready to transfer files. Drag the files to an appropriate folder in the Remote Site on the right, e.g. /home/youraccount.

### 4. Deleting a File From Your Home Directory Renaming a File in Your Home Directory

On the home directory (remote) side of your window, click a file to select it.

From the **Files** menu, select **Delete**.

In the **Confirm** dialog box, click **OK**. The file is deleted.

### 5. Renaming a File in Your Home Directory

## Edit personal page

On the home directory (remote) side of your window, click a file to select it.  
From the **Files** menu, select **Rename**.

The file name becomes editable. Make whatever changes to the file name you wish.

Click anywhere outside the file name to save the changes.

### 6. Closing Your Connection

In the top right corner of the **WinSCP** file transfer window, click the **red X**.  
In the **Confirm** dialog box, click **OK**. This closes your connection to the host computer, and closes the window.
