3rd IASBS Symposium in Biological Sciences

Protein Folding and Stability

Department of Biological Sciences, IASBS, Zanjan, Iran
November 2-4, 2017

Protein folding and stability has a determining role in biological processes. This field is the focus of interest for many interdisciplinary researchers. Both theoretical and experimental approaches in the field are welcomed in the 3rd IASBS Symposium in Biological Sciences.

National and International experts will provide lectures in Protein folding, stability and aggregation.

Abstract Submission Deadline: **October 2, 2017**
