

6th International IASBS Symposium on Biological Sciences

And

16th Iran Society of Biophysical Chemistry (ISOBC) Conference

Feb. 4-5, 2021, Zanjan, Iran

1st Day, Thursday, Feb. 4, 2021, Morning Session

| 9-9:30 | 9:30-10 | 10-10:30 | 10:30-11 | 11-11:30 | 11:30-12 | 12-12:30 | 12:30-13 | 13-14 | 14-15 |
|---|--|---|---|----------|--|---|--|-------|--------------------------------|
| B Karimi IASBS President (Inaugural) | AA Moosavi-Movahedi ISOBC President (Inaugural) Curcumin Versatility on Protein and Life Sciences | K Khajeh Allosteric Behavior of the Enzyme Methylglyoxal Synthase | S Hosseinkhani Split Luciferase Activity Revealed Critical Residues in Activation of Apoptosome | Break | T Haertlé Antiviral Properties of Modified Whey Proteins | RH Khan How Misfolding or Aggregation of Protein is Checked by Drugs | S Ayrapetyan Activation of Metabolic Driving Net Water Efflux from the Cell as an Increase of Resistance of Organisms to Coronavirus Infection | Break | Poster Session (in English) |

1st Day: Thursday, Feb. 4, 2021, Evening Session

| 15-15:30 | 15:30-16 | 16-16:30 | 16:30-17 |
|--|--|--|----------|
| H Hadi-Alijanvand Ethnic Groups and the Affinity of ACE2 Protein for SARS-CoV-2 Spike | R Yousefi A decade of work on recombinant proteins and peptides: from the behind reasons to the future prospects | A Divsalar Nano drug delivery systems containing milk carrier proteins of Beta lactoglobulin and beta casein: design, characterization and anticancer activity | Break |

2nd Day: Friday, Feb. 5, 2021, Morning Session

| 9-9:30 | 9:30-10 | 10-10:30 | 10:30-11 | 11-11:30 | 11:30-12 | 12-12:30 | 12:30-13 | 13-14 | 14-15 |
|--|--|--|---|----------|--|--|---|-------|---------------------------------------|
| S Akbari-Birgani Caspase-9 as A Therapeutic Target in Cancer Therapy | M Amani Mitochondria in Cancer and its Treatment | K Shahpasand Alzheimer's Disease Immunotherapy Employing a Fully Human Antibody Against Pathogenic Tau | A Meratan Nanonization as an Efficient Strategy to Improve Bioavailability and Anti-Aggregation Properties of Polyphenols | Break | L Saso Pharmacological Applications of Modulators of Oxidative Stress | F Ahmad Does Amino Acid Sequence Determine Structure Which Determines Function? | A Mashaghi Bioengineering to Fight Viral Diseases | Break | Poster Session (in English) |

2nd Day: Friday, Feb. 5, 2021, Evening Session

| 15-15:30 | 15:30-16 | 16-16:30 |
|---|-----------------------------|----------------|
| AA Saboury Science: Power and Competition | ISOBC Young Scientist Award | Closing |
